Dear

I am applying for the kindergarten position at \_\_\_\_\_ Township Public Schools. Over the past several months, I have been diligently working toward earning my professional teaching certificate. Throughout my experiences, I have learned to identify and implement a district curriculum that is aligned with the standards, differentiate instruction based on student needs, and create a safe and flexible learning environment.

Throughout student teaching, I have developed experience in achieving student success by implementing evidence-based practices, documenting student progress, and collaborating with educators. In addition to my student teaching experiences, I have completed courses in preparation for my certification in classroom management, family collaboration, and mathematical practices. These courses and fieldwork experiences have prepared me for the classroom. I am confident I can develop and deliver district-approved curriculum and practical lessons, collaborate with professionals, and engage with parents and community members.

At the heart of my teaching philosophy is the belief that every student has the potential to succeed when given the right tools and encouragement. My job as an educator is to be my students' advocate and ensure that all students feel valued and supported in their educational journey.

I am certain I can be an asset to your school and am committed to learning and growing as an educator. Thank you for considering my application.

Sincerely,

Danielle Chenoweth
